Education

Bachelor of Engineering (B.E) – Artificial Intelligence and Machine Learning

BMS Institute of Technology and Management, Bangalore

(2023–2027)

Pre-University Sri Chaitanya PU and CBSE College, Bangalore

(2023)

School Sri Chaitanya Techno School, Vidyaranyapura, Bangalore

(2021)

Projects

Respondr | Ambulance Booking & Emergency Response System [website](#)

- Developed a scalable full-stack web application using React, TypeScript, REST APIs, and modern frontend development practices.
- Implemented responsive user interfaces, API integration, and real-time emergency request workflows.
- Collaborated on application architecture, testing, debugging, and deployment activities.
- Developed a web-based platform that enables users to book ambulances and request emergency medical assistance in real time.

Blockchain-Based Certificate Verification System [website](#)

- Built a decentralized system using smart contracts for immutable certificate storage.
- Implemented smart contracts and cryptographic hashing to ensure certificate authenticity and prevent certificate tampering .

Attendance-Based Payroll Management System [GitHub](#)

- Developed a web-based system to track employee attendance and automate payroll generation based on attendance records.
- Implemented attendance tracking, salary calculation, and payroll record management functionalities.

Temple Management Website | Information, Events & Online Booking Platform [website](#)

- Developed a responsive multi-page website using Next.js and TypeScript.
- Designed user-friendly interfaces for information display, event updates, and online booking services.
- Optimized the website for performance and accessibility across desktop and mobile devices.

Technical Skills

- **Programming:** Python, Java, JavaScript, TypeScript, PHP, C Programming
- **Web Development:** React.js, Next.js, Node.js, HTML5, CSS3, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **AI/ML:** TensorFlow, Machine Learning Algorithms, Model Evaluation, Prompt Engineering
- **Cloud Tools:** Microsoft Azure, Git, GitHub, Linux

Certifications

- Prompt Engineering – Reliance Foundation
- SQL (MySQL) — Be10X
- Climate Change to Learning Action – EVS

Experience

Operations Head – IIC BICEP (Innovation Cell BMSIT&M)

- Organized and executed technical workshops and hackathons with 100+ participants by coordinating logistics, speak-ers, and technical resources.
- Coordinated cross-functional teams including faculty, startups, and student developers, and led digital outreach initiatives to improve event engagement and participation.

President, PALS Club BMSIT&M

- Led chapter activities and organized technical, leadership, and alumni engagement events.
- Coordinated student teams and collaborated with faculty and alumni for event management.
- Encouraged student participation in innovation and professional development programs.

Leader & Volunteering

Technical Event Leadership

- Served on the organizing team for 5+ industry events and hackathons, including **Google Cloud Agentic AI Day, Zuora Prompt-A-Thon 2025, Cardano Hackathon Asia – IBW Edition 2025, Google for Developers Build with AI Bootcamp, and AMD Slingshot Event.**
- Coordinated registrations, participant engagement, logistics, and event operations to ensure successful execution.
- Participated in Google Cloud AI Labs, gaining hands-on experience with AI and cloud technologies.
